Report:

- ① The material relevant to priority that applicants seek to amend appears to be identical.
- ② The information relative to 08/484783 does not appear to be relevant to these allowed claims at this stage of closed prosecution. Further, the issue about ~~inventorship~~ inventorship and the Assignment has been raised of record in prior office actions and was not corrected, and thus, is too extensive to correct after allowance.
- ③ All provisions of 37 CFR 1.56 have not been complied with for IDS after allowance.
- ④ The addition of 8 claims after allowance raises far too many issues and can not be entered. Applicants only attempted to add claims, not amend them. Thus, Exhibits A+B are not clear. The entire amendment is far too extensive to enter after allowance.
